Article Summary - Condo Version (US) Volume 14, Issue 7 (July 2018)

PAGE 1

Prices on an Upward Trend

While many consumers tend to pay more attention to the real estate market during these warmer months, it's worth being cognizant of the home pricing trend that continued to build even throughout the cooler weather. For example, home prices even back in February showed a continued, long-term spell upward.

In today's competitive condo market, it's crucial to consult with a real estate representative who's familiar not only with the latest activity of the area in which you're looking to buy or sell, but also with the specific characteristics of the local condo market.

Terminology Tip: Lump Sum Prepayment

Get to Know Your Home

Once you've narrowed down your decision to the house or condo you're interested in purchasing, you'll need to learn as much as you can about its condition. Some physical issues and imperfections may be visible to you; others are sometimes revealed only through the services of a professional home inspector.

Household Tip: Go Green With Oranges

PAGE 3

Smoke Detectors Save Lives

They're inexpensive, quick to install, easily maintained and can save your and your family's lives. They're smoke detectors, and every home needs them, on every level.

Keep it Cool

Whether it's because your place doesn't have air conditioning, or you're looking to save money by cutting down on your air conditioning usage, or whether you're concerned about the significant effect of air conditioning on the environment, you'll want to practice the following habits to prevent excess heat from entering your home this summer.

Monthly Musing
